

Phil,

I wanted to take this time to compliment you and your team on delivering an outstanding machine. Everything is working great and the quality of the unit is top notch. I also wanted to complement Brad. He was on time, extremely hard working, very knowledgeable and could not have been more helpful on the install, cal and setup of the machine. I think we still would have been trying to figure it out if he was not here! He also followed up on everything and had responses sooner then I expected. The team here certainly appreciates the hard work that Chant put into the equipment. It was a pleasure to do business with you guy and I look forward to working with you guys in the future.

Thanks again  
-Derek
