

Story from Wire Rope Exchange - September - October 2011 Issue

Rodgers Joins Chant Engineering

Chant Engineering, New Britain, Pennsylvania, is pleased to announce the addition of **Bill Rodgers** to their sales and technical team. Rodgers joined Chant in early July as their new **Technical Sales Manager**. His new role focuses on calibration, new machine specifications and sales. Prior to joining Chant Engineering, Rodgers worked

as the Calibration Manager for **Roberts Testing** where he sold new services, offered on-site calibration of machines and serviced products throughout the U.S.

With 30 plus years experience, Rodgers brings a wealth of skill in retail sales, wholesale operations, dealer management, small business ownership and consulting to his new position.

Phil Chant, Vice President of **Chant Engineering**; said, "Bill is a quality addition to our team. He will play a key role in enhancing relationships with existing customers and attracting new clients – we are delighted to have him on board."

Chant Engineering is a global, diversified engineering company that designs, manufactures, services and calibrates testing machines, systems and related accessories for worldwide industrial and military customers. The company with 40+ employees resides in a new 38,000 sq. ft. "green design" energy efficient manufacturing facility. For more information on Chant Engineering, visit www.chantengineering.com
