Mr. Phil Chant
Chant Engineering Company Inc.,
New Britain, PA 18901-5186

Dear Mr. Chant;

I would like to express my sincere thanks for your company's continued support, and rapid responses to our program requirements. Your team's ability to quickly turnaround the Extended Cargo Rail System without impacting the schedule or cost and the superb support provided with the Engine Intake Cover Fastening device have been contributing factors in our programs recent success. Your engineering design performance, and product quality has met or exceeded our expectations. Additionally your ability to make changes on short notice due to changing requirements have saved the Government thousands of dollars in procurement and rework costs.

I look forward to your continued support in problem-solving and future deliveries of mission equipment to our warfighters. Your team's hard work will have a lasting effect on this crucial program in defense of this great nation.
